

Curriculum vitae

My name is Paul Weichhart and I live in Enns in Upper Austria with my wife and our two kids. In the past I was working as an iOS Tech Lead at adidas Runtastic GmbH and Senior iOS Engineer at Tractive GmbH.

I'm a proud dad, passionate developer, photographer, adventurer and the creator of the standalone Apple Watch App „Set Your Intention“.

Work history

Since 1st of April, 2025

1st of October 2003 – 28th of February, 2009

Technical University of Vienna and University of Vienna

Automation engineering

3rd of September 1997 – 24th of June, 2002

HTL St. Pölten

iOS and watchOS Apps I contributed to

During my seven years at adidas Runtastic, I worked on many different aspects of the Running and Training iOS App. Later on, as iOS Tech Lead, I contributed to many horizontal level topics of both apps. During this time, we defined a roadmap for the technical development of our apps and introduced several different frameworks and technologies like SwiftUI and async/await in our codebase. Over the last two years, I also lead significant large projects that were successfully launched including the redesign of the Running App or the roll out of Xcode project generation with Tuist.

adidas Running on the App Store <https://apple.co/3rMfWZW>

During my work at Tractive, I developed many features of the mobile iOS App like the Bluetooth Background Sync or worked on technical topics like the Swift 6 Migration. I was also responsible for the App Quality and Bluetooth related functionalities.

Tractive GPS on the App Store <https://apple.co/4gEg74f>

In my free time, I like to experiment with different architectural patterns, approaches and frameworks, as can be seen in my open source Apple Watch App „Set Your Intention“.
